

Obstetric Patient Safety (OPS): OB Emergencies Workshop 3rd Edition

Despite efforts from many collaborative agencies and professional organizations, the Maternal Mortality rate in the US continues to remain high. The OPS Workshop is designed to help clinicians identify, assess, and manage the patients with an Obstetric emergency through simulation and debriefing

Learning Outcomes

- Identify key factors that place the patient at higher risk for an obstetric emergency.
- Demonstrate effective management for pregnant or postpartum person during an obstetric emergency.
- Role-play with a multidisciplinary team using simulation-based cognitive, behavioral, and technical learning strategies to practice management of a patient experiencing an obstetric emergency.
